WHO WE ARE

Hearth Products Controls Company (HPC) was originally a division of The Maddox Company (founded by Dan Maddox) incorporated on December 1, 1975. TMC was active in the hearth products industry as a manufacturers representative, one step & two-step distributor, and as a manufacturing division. The HPC division began in 1989; HPC was split off as a separate corporation in 2001.

The foundation of the company was built on safety pilot valve, millivolt valve, and remote control kits / repair parts, as well as various other components for the hearth industry. We then diversified our thinking by introducing the Outdoor Fire Products line in 2003 with the manufacturing of fire rings. Today this segment of the business has grown to include over 300 CSA Certified Models with various technologies including match lit, manual spark/flame sense and high-end remote electronic ignition fire pit inserts. Also available are TK Torches, copper water bowls, outdoor accessories, and a selection of stainless steel components second to none.

HPC also designs custom fire features and their control systems in many shapes and sizes for residential or commercial applications. These range from 2 feet to 50 feet wide, from 50 thousand Btus or more. These fire features - found at large venues throughout the world including casinos, resorts, and restaurants. HPC is committed to R&D of current and new product.

We are located in Kettering, Ohio. Our facility houses manufacturing, warehouse & of course the always helpful office staff. We have a very diverse, experienced and knowledgeable group of Sales Reps throughout the U.S. & Canada that cover every state & region. We have numerous distributors & retailers in North America in industries including hearth, landscape, pool & spa, outdoor kitchen, patio furniture, and outdoor lighting just to name a few. For your support, we have staff that is second to none as our NFI Certified technical support and management team understands the industry and your needs.

OUR OPERATING STANDARDS

- Value every customer regardless of size.
- Treat customers, as we would like our sources to treat us.
- Make products that are as widely applicable as possible.
- Use the best possible components in our products.
- Keep overhead as low as we can, consistent with good service and fair prices.
- Continuously looking for ways to improve our present products and services as well as searching for additional services and products our customers want or need.
- Be professional in all actions, products, and materials.
- Keep as aware as we can of industry trends and changes.
- Keep our inventories at a level consistent with quick and complete shipment of orders.

MISSION STATEMENT

HPC will strive to be the leader in our industry through safe, innovative, high quality products and more importantly provide excellent customer service, training, and education to our valued customers and community.

WHAT WE DO

Working within our mission statement and operating standards HPC does the following and much more!

- *Develop, construct, and package the most useful and easy to use kits in our industry for gas log repair.*
- *Offer custom kits to meet any customer needs with our label, no label or with our customer's label.*
- *Have components manufactured just for our use which are the best on the market.*
- *Provide a variety of products to assist in the installation and servicing of hearth products.*
- *Provide excellent customer service & state-of-the-art NFI-Certified technical support for our kits and products.*
- *Offer broad line of outdoor burners including our patented Penta burners, fire rings, H-Burners, T-Burners, linear, and dual burners.*
- *CSA Certification on over 300 models of match-lit, push button and electronic ignition fire pits inserts.*
- *Design & build custom fire pit inserts and burners.*
- *Orders are shipped within 2 - 5 days upon receipt of PO for majority of product.*
- *Always offer a live attendant on our phone lines 8:00AM–5:00PM, Monday–Friday, Eastern Standard Time.*
- *R&D Strong - always engineering and developing innovative, safe products.*
- *Product safety is our top priority - to educate both dealers and end users on safe installation and operation of products.*
- *Offer a diverse line of products from indoor hearth to outdoor fire, and unique innovative water features.*
- *Also have after hours voice mail and website is available 24/7 at www.hpcfire.com*

SMALL ORDER SURCHARGE

We have a small order surcharge on orders of \$50.00 or less.
Surcharge of \$5.00 is applied to orders of \$0.01–\$24.99
Surcharge of \$3.00 is applied to orders of \$25.00–\$49.99

FREIGHT POLICY

Most orders will be shipped FOB Kettering, Ohio, with a standard shipping carrier selected by HPC unless customer specifically requests their own carrier and account. A handling fee will be charged for use of non-standard HPC carriers. A freight quote may be requested in advance. HPC works diligently with standard carriers to achieve the best discounts available.

Need help? Use our fire pit selector at hpcfire.com

LIVE BURN PROGRAM

You will receive credit for future purchases on the following products that you install in a live burn display at your facility or your outdoor demo area. Purchase these products, install in live burn area, take a picture of the live burn demo and forward it with your request for credit. Please note this is not an up front discount. If live burn credit request is not received in 30 days, credit will be applied to account when approved. (Payment is due in full Net 30.) Fifty percent (50%) credit of the demo items will be applied to your account on a manual control valve kit, safety pilot kit, millivolt kit, and CSA-Certified fire pit inserts. Ten percent (10%) credit on demo of Evolution 360 Series. The live burn demo credit does not apply to custom products, complete packages (Copper Bowls and Enclosures), individual components and media.

CREDIT POLICY

All shipments are billed in US Dollars and must be paid in US Dollars. Our regular terms are Net 30 days from the invoice date.

- 1 *If an invoice becomes 10 days past due, the account may be placed on credit hold. Placing an account on credit hold restricts the shipment of future orders.*
- 2 *When an invoice becomes 15 days past due, we reserve the option to apply a 1.5% per month finance charge back to the due date of the invoice and for any 30 day period going forward in which the invoice remains unpaid. The account terms may be changed to Credit Card or Cash in Advance.*
- 3 *If an invoice becomes 30 days past due, your account may be referred to an outside collection agency unless we have jointly agreed to a payment schedule or plan.*
- 4 *When the account is referred to a collection agency, the collection charges must be repaid. Also, we reserve the right to make the account terms Credit Card, or Cash in Advance.*
- 5 *Any discounts received on a delinquent invoice may be revoked and expected to be paid. HPC reserves the right to discontinue future discounts.*
- 6 *Customers receiving regular discount and/or volume order discount must pay by check, not credit card.*
- 7 *Net 30 invoices must be paid via check. Use of credit card is not allowed on invoices where terms have been extended.*

If you ever have a temporary payment issue or we have made a mistake on an invoice, please call us immediately to discuss and resolve the problem.

Sincerely,
Greg Steck

A handwritten signature in black ink that reads "Greg Steck". The signature is written in a cursive style with a large "G" and "S".

President
Hearth Products Controls Co.

We accept:

MINIMUM ADVERTISED PRICING (MAP) POLICY

Look for:
MAP
APPLIES

Hearth Products Controls Company (the "Company") has unilaterally adopted this Minimum Advertised Pricing policy ("Policy"). This Policy is subject to change at any time by the Company at its sole discretion.

- 1. Purpose:** The purpose of this policy is to protect the value of the Company's trademarks and brand names and to attract and retain reputable, customer-friendly resellers.
- 2. Scope:** This Policy is applicable to all sellers of the Company's products (the "Products") who advertise or sell Products on any platform ("Resellers") and to distributors ("Distributors") that sell to such Resellers. This Policy applies to all Products of the Company unless otherwise specified by the Company. The Policy applies to prices advertised anywhere including but not limited to magazines, newspapers, flyers, catalogs, coupons, mailers, television, radio, signs, websites, social media, order entry/purchase order forms, direct e-mail advertising and related materials that are accessible through the Internet platform(s) by means of a hyperlink.

The Policy does NOT apply to advertising displayed only in the store and not distributed to the customer for Products to be sold in-store.

This Policy does NOT apply to the price at which the Products are actually sold. Nothing in the Policy or other agreement with the Company will constitute an agreement on the price or price levels at which Resellers or Distributors actually sell any Product.

- 3. Minimum Advertised Price (MAP):** The advertised price of a Product means the net price advertised after all discounts, rebates, gifts or promotional items. The Minimum Advertised Price ("MAP") shall be set by the Company from time to time in its sole discretion and shall be communicated by the Company to the Resellers from time to time. If the Company makes the MAP available on a website accessible to the Reseller and informs Reseller of this, it is the responsibility of the Reseller to maintain current knowledge of the MAP.

- 4. Policy on Price Advertising:** It is the policy of the Company that Resellers shall not advertise any Company Product at prices below the MAP for that Product established by the Company. This policy is not violated by Reseller advertising a higher price. Also, this policy is not violated by communication by email or telephone to an individual customer in response to a telephone or email inquiry from the customer. Statements such as "call for pricing" for a Product do not violate the Policy as long as a price for the Product is provided on the same paper or website and that price is equal to or exceeds the MAP. Also, it is a violation of this Policy for the Reseller to characterize or disclose any pricing as the minimum advertised price or that such minimum is based on the Company's policies. Resellers and Distributors have not agreed to this unilateral Policy and the Company is not seeking any such agreement. However, if a Reseller or a Distributor violates this Policy, the Company's policy is to take certain unilateral actions.

- 5. Actions by the Company:** The Company has the right to sell Products to each Reseller or Distributor or to refrain or stop from doing in its discretion for any reason or for no reason. Under this Policy, if Reseller advertises Products below the MAP or otherwise violates this Policy, the Company may cease selling or shipping Products to Reseller or its customers and/or cease taking orders from Reseller for a temporary or permanent period in the Company's discretion, which may take into account circumstances such as the number of violations or the repetition of violations. Also, if a Distributor sells Product to any Reseller that violates this Policy, the Distributor will be in violation of the Policy and the Company may cease selling or shipping Products to that Distributor or its customers and/or cease taking orders from that Distributor for a temporary or permanent period in the Company's discretion, which may take into account circumstances such as the number of violations or the repetition of violations. The Company will take these actions unilaterally and will not seek or accept any agreement by a Reseller or a Distributor or any assurance of future compliance by that Reseller or Distributor.

- 6. Contact Information:** Company sales personnel have no authority to modify or grant exceptions to this Policy. All questions or comments regarding this Policy should be directed to the policy administrator at info@hpcfire.com.

Photo Courtesy of Swim World Pools - TN

Our Water feature inserts (pg. 36) are relaxing on a primal level, with the subtle sounds of running water and flames licking into the wind, it will draw anyone near it in.

PRODUCT RETURN POLICY

All returned product must have an RMA (Return Merchandise Authorization) issued by one of our technical support staff, so please call to get an RMA. To get an RMA please have your original purchase information available and contact the technical support staff. A support person will attempt to solve the problem over the telephone. If the technical support staff cannot troubleshoot the problem over the phone, a RMA and a return services label will be issued.

The RMA number must be indicated on the outside of the returned package and a copy of RMA paperwork should be within the package. The RMA is valid for 30 days after issued. Once we receive the product back, testing will begin.

It is important to note the complete unit must be returned in order to test the product. If all parts needed to test the unit are not returned, parts needed will be charged to the customer and unit will be returned complete to the customer. If you have any questions on what should be returned, please contact the technical support staff.

Photo Courtesy of The Hearth Shop - California

PRODUCT TESTING PROGRAM

A Product Testing Report will be filled out by our testing department showing what was found in testing and the disposition of tested products.

DEFECTIVE: If an item is found to be defective it will be repaired or replaced at our discretion. HPC will absorb all costs of incoming/outgoing freight and replacement or repair costs if product is in warranty.

NON-DEFECTIVE: If the product is found to be non-defective it will be returned to the customer — no credit will be given. Freight in and freight out are at customers expense.

HPC ERROR: If a return is needed due to a mistake on our part, we will issue a RMA and Return Services Label. When products are received at HPC, credit will be issued for the products and the outgoing freight on the original invoice.

CUSTOMER ERROR: If an RMA is asked for and covers current new products in the original package, we will authorize the return. The customer is responsible for the return shipping. When products are received we will issue credit for the original customer cost less a 20% restocking charge. Custom orders do not apply.

EXCESS INVENTORY: If due to excess customer inventory (of current new products in original packages only) we may issue a RMA. The customer is responsible for the return shipping. When products are received we will issue credit for the original customer cost less a 20% restocking charge.

REMOTE CONTROLS: Please confirm you have replaced the batteries in the handheld remote and receiver and reprogrammed the remote before returning the unit to Hearth Products Controls under warranty. If your remote is found to be non-defective except for weak or bad batteries, you will be charged for any freight charges incurred for the return.

WARRANTY PROGRAM

Hearth Products Controls Company warranties product against manufacturing defects that prevent safe and correct operation of the product commencing from the date of original sale or shipment from HPC. The warranty on parts and in-house labor will apply only to claims presented to us by our original customer and is in lieu of all other warranties expressed or implied. Please refer to the Warranty Chart below for warranty periods.

The defective product must be shipped back with an RMA (Return Merchandise Authorization) issued by HPC for that specific product which states the nature of the defect or warranty claim. Product to be returned should be packed carefully—HPC is not responsible for shipping damage on returned items. The original purchase information will be required. RMA's are only valid for 30 days from the date of issue by HPC and will not be processed if received after the expiration date. The RMA number must be indicated on the outside of the return package and a copy of the RMA should be placed in the package with product.

Our warranty does not cover items that have been damaged by over heating, modification, abuse, improper storage, installation, or maintenance. This warranty excludes claims for incidental or consequential damage and indirect-collateral expenses arising from product defects or warranty recovery. Appliances manufactured by HPC including CSA Certified models, cannot be altered or modified in any way.

Hearth Products Controls Company is not responsible for local codes and / or if any of our products are not approved for installation. Please check with your local authorities or governing agencies for proper approvals before purchasing. HPC is not responsible for the actions including negligence of the installer.

HPC FIRE PIT CONTROLS *Explained*

THE NEXT 3 PAGES WILL HELP DECIDE...

- How to light the fire pit?
- Does the fire pit need flame sensing?

HPC OFFERS THREE FLAME CONTROL OPTIONS FOR OUR CERTIFIED FIRE PIT INSERTS- ALL OF WHICH OFFER OPTIONS THAT BEST FIT YOUR NEEDS.

1

Remote Electronic Ignition (EI Series)
(Pg. 8)

2

Push Button / Flame Sense (FPPK Series)
(Pg. 9)

3

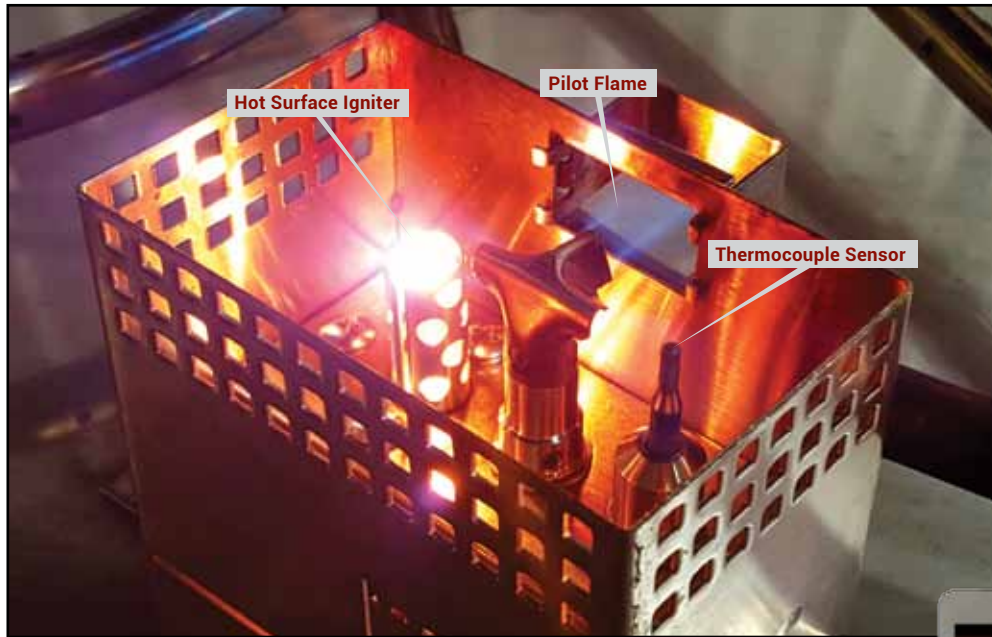

Match Lit System (MLFPK Series)
(Pg. 10)

① REMOTE ELECTRONIC IGNITION CONTROL (EI SERIES)

This is our top-of-the-line system featuring the ignition ease with use of a wall switch or handheld remote to control flame as well as auto-relight if flame loss. This year we are launching a new control system with numerous convenience and performance improvements for both On/Off Models and our newly introduced High/Low Models- such as High/Low flame control via our new remote, a redesigned hot surface igniter and many other improvements.

Igniter / Sensor are protected from outdoor elements in the blowout box

Smart device App available on Hi/Lo Models only

How It Works

Start Up: This is done by use of a wall switch or remote control. When the ON command is received, the system completes initial safety checks then starts flow of pilot gas. After 5 seconds the hot surface igniter glows igniting pilot flame. When the system confirms pilot flame present, the main burner gas will flow ignited by the pilot flame.

Operation: While enjoying the ambiance of your fire pit, the system is at work monitoring flame status, internal temperatures / voltages and other safety parameters. If flame loss does occur, the system will turn off all gas flow, and then restart by automatically commencing Start sequence.

On/Off Models: Includes the convenience and safety features- optional remote control available.

High / Low Flame Control Models: This option includes a smart remote and App via smart device control with 2-way communication with the fire pit. Remote allows flame height control while receiving information from fire pit to advise user of fire pit status (flashing LED).

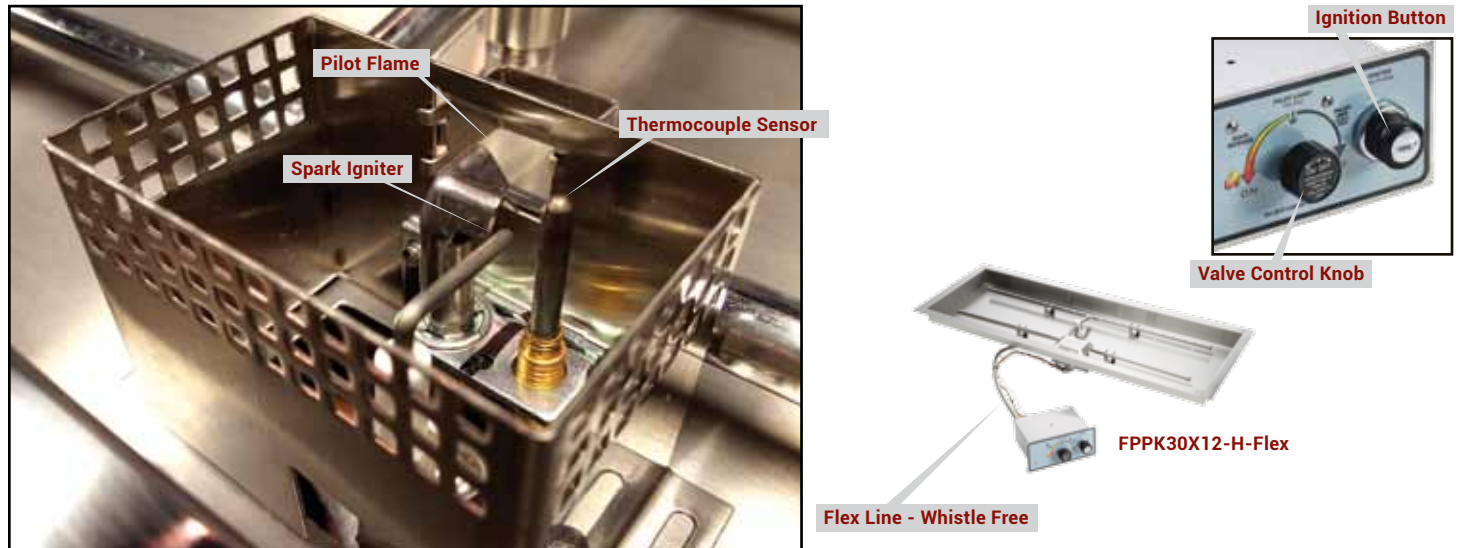

Shut Down: To turn OFF the fire pit simply use wall switch, remote control or whole house system.

Features

- Fully Assembled- ready to install. Control components are protected within valve box.
- Start via wall switch or remote control; Auto re-light if flame is lost.
- Ignition is complete using a robust and reliable Hot Surface igniter.
- On/Off models: Use with optional wall switch, Remote Control or your whole house system
- High/Low Flame Control Models: Adjust high setting to low setting- ~45% turndown (Remote Control included). Not for use with your whole house system.
- 120vac: Standard outdoor grounded power cord- simply plug into GFCI outlet.
- 24vac Option: Typically used pool side or with other lower voltage requirements.
- Natural Gas or Liquid Propane: Factory built & tested for either fuel.
- Internal temperature monitoring with overheat auto shutoff.
- CSA Certified in US & Canada to ANSI Z21.97-2014 / CSA 2.41-2014 requirements. (This new EI system already meets upcoming 2018 ANSI requirements).
- Optional Controls: On/Off Remote, Timers, Power Supplies and an Emergency Shutoff. (Pg. 26)

② PUSH BUTTON / FLAME SENSE CONTROL (FPPK SERIES)

This is our mid-range fire pit insert utilizing safety pilot flame control- simply push ignition button and valve control knob to start... flame adjustment is done with knob. This battery operated system is a good solution for flame sensing necessity without AC power requirements.

Igniter / Sensor are protected from outdoor elements in the blowout box

How It Works

Start Up: This is done by simultaneously pressing valve control knob to start flow of pilot gas and pressing ignition button for spark. Release spark after pilot ignition, release valve control knob after ~20 seconds. Then turn valve control knob counterclockwise to light main burner.

Operation: Flame height may be adjusted by turning valve control knob- counterclockwise provides more flame, clockwise lowers flame. If flame loss does occur, the system will automatically turn off all gas flow.

Shut Down: To turn OFF the fire pit simply turn valve control knob clockwise- slightly depress knob to reach OFF position.

Features

- Fully Assembled and ready to install. Control components are protected within valve box.
- Flex Line configuration provides versatile and simple installation.
- Start ignition with push button and valve control knob.
- Flame sensing- system will turn off gas if flame is lost.
- Flame height is adjustable using valve control knob.
- Battery Operated System- is perfect solution for installs with no power.
- Natural Gas or Liquid Propane: Factory built & tested for either fuel.
- CSA Certified in US & Canada to ANSI Z21.97-2014 / CSA 2.41-2014 requirements.
- Optional Install: Control Box Sleeve for mounting in pavers, metal and more. (Pg. 27)

③ MATCH LIT (MLFPK SERIES)

This is our simplest certified fire pit insert- easy to operate and requires the least amount of maintenance.

30" X 12" Match Lit
(MLFPK-FLEX)

MLFPK Paver Bracket - Pg. 25
(Optional)

How It Works

Start Up: This is done by lighting long-stem lighter next to perimeter of burner then slowly open key to valve. Leave key in valve during use.

Operation: Flame height may be adjusted by turning key to valve- counterclockwise provides more flame, clockwise lowers flame.

Shut Down: To turn OFF the fire pit simply turn key to valve clockwise to OFF position. Remove key.

Features

- Fully Assembled and ready to install.
- Flex Line configuration provides versatile and simple installation.
- Valve mounting bracket included- for safe mounting of control have.
- Flame height is adjustable using key valve.
- Natural Gas or Liquid Propane: Factory built & tested for either fuel.
- CSA Certified in US & Canada to ANSI Z21.97-2014 / CSA 2.41-2014 requirements.
- Optional Install & Controls: Paver Block Bracket, Key Extension Kit, and Long Keys.

WHY CHOOSE A PENTA BURNER

OVER OTHER RINGS & BURNERS?

HPC has been the leader in fire ring and burner technology since 2003- launching numerous innovative designs including linear trough, dual burner and our original gas fire ring.

In 2012, HPC introduced the Penta Burner- a very unique and innovative burner design that delivers a very full campfire effect...much more evident than any other burner or fire ring on the market. This is accomplished by the 12 & 3 o'clock burner ports on each lobe of the burner (except on the lobe tips) by design to reduce risk of excessive heat exposure to enclosure cap. This port design also prevents a distinct burner pattern when on lower flame setting- unlike many fire rings or burners.

The Penta Burner design requires less fuel to deliver the same flame height versus other fire rings resulting in lower cost to operate. The Penta Burner has received multiple Utility and

Design Patents highlighting the innovation, technology and unique appearance behind the design.

Features

- Made of #304 Stainless Steel with a 5 year warranty.
- Raised-hub design prevents water from entering gas valve.
- Burner ports drilled at 12 & 3 o'clock positions for full flame.
- No distinct burner pattern at low setting.
- Low profile design requires less lava, glass or other media.
- Full range of sizes- from 12" to 48" available.
- Patented Technology- Utility and Design Patents Apply

SPIDER GUARD

SAFETY AND PROTECTION FROM HPC

It is a known fact that spiders are very attracted to LP gas. Over the years we occasionally see a clogged air mixer / orifice due to a spider nest, resulting in a gas leak out the venturi and filling the fire pit cavity. To prevent this, all certified LP fire pits will utilize a "spider guard" to prevent this potentially serious situation.

ROUND INSERT MODELS

FULLY ASSEMBLED, COMMERCIAL GRADE, CERTIFIED INSERTS

All fire pit inserts come fully assembled and include installation and operation instructions.

ROUND BOWL INSERTS

An HPC original- this stainless steel, spun bowl design was launched in 2004...and today is still our most popular pan style.

Benefits: Sidewall helps with media retention; Pan Lip provides for recessed burner / blowout box.

Features:

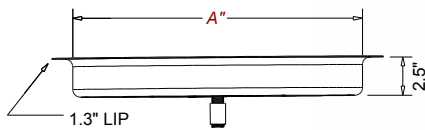

- Made of #304, 18 gauge Stainless Steel
- Spun design adds rigidity
- Welded gas fitting for strength
- Weep holes for drainage

ROUND INSERT MODELS (CONTINUED)

FULLY ASSEMBLED, COMMERCIAL GRADE, CERTIFIED INSERTS

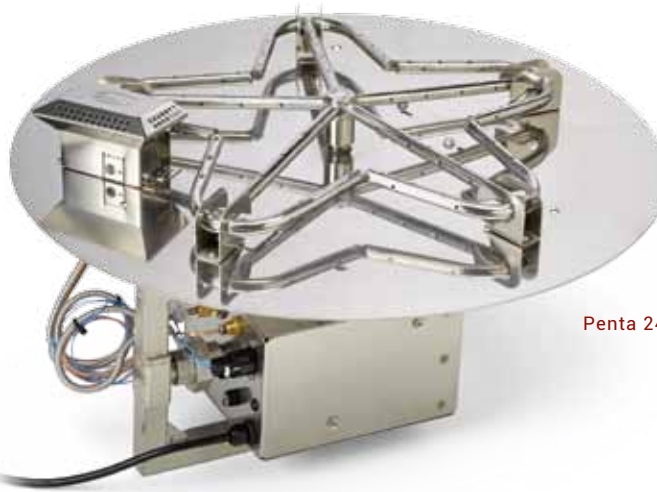

All fire pit inserts come fully assembled and include installation and operation instructions.

ROUND FLAT INSERTS

Benefits: Economical flat design- used in enclosures that have recess mount and internal sidewalls for media.

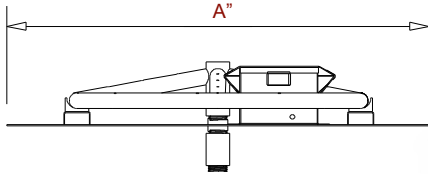

Features:

- Made of #304, 18 gauge Stainless Steel
- Raised hub burner for water prevention
- Welded gas fitting for strength
- Weep holes for drainage

EI MODELS INCLUDE:
Insert: Fully Assembled
Flex Line: Gas Input
Instructions

Penta 24" Electronic Ignition (EI)

Accessories (Pg. 26):
Timers
Power Supplies
E-Stop

SOLD SEPARATELY:

- On/Off Models 120VAC- Remote: 578-C: See Pg. 26
- Vinyl Cover: See Chart on Pg. 65
- Lava Rock / Glass: See Chart on Pg. 65

**See Pg. 8 for
EI System Features**

LINEAR INSERT MODELS

**MAP
APPLIES**

FULLY ASSEMBLED, COMMERCIAL GRADE, CERTIFIED INSERTS

All fire pit inserts come fully assembled and include installation and operation instructions.

LINEAR TROUGH INSERTS

The trough pan was introduced to industry by HPC in 2008- it is still a popular model with our Dealers.

60" Electronic Ignition (EI)

Benefits: V-Shape reduces amount of media; Sidewall helps with media retention; Pan Lip provides for recessed burner / blowout box.

Features:
Made of #304 Stainless Steel (48" and smaller- 18g, 60" and larger- 16g)
V-shape saves on media amount needed
Sidewalls adds rigidity- stronger than flat pans
Weep holes for drainage

EI MODELS INCLUDE:
Insert: Fully Assembled
Flex Line: Gas Input
Instructions

Accessories (Pg. 26):
Timers
Power Supplies
E-Stop

SOLD SEPARATELY:

On/Off Models 120VAC- Remote: 578-C: See Pg. 26

Vinyl Cover: See Chart on Pg. 65

Lava Rock / Glass: See Chart on Pg. 65

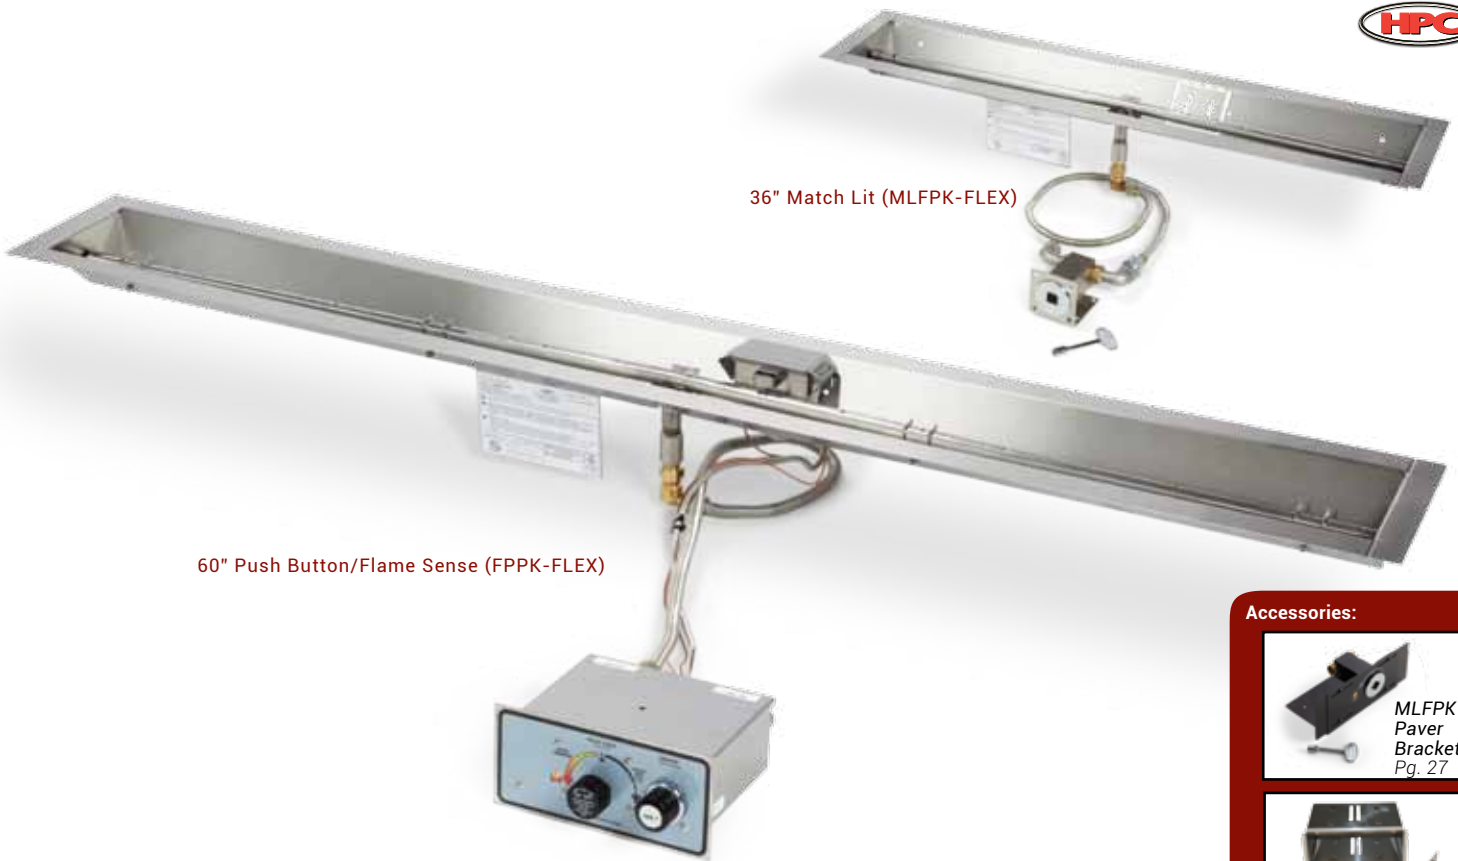

See Pg. 8 for EI System Features

CONTROL OPTIONS

ELECTRONIC IGNITION MODELS (EI)

COMMERCIAL AUTOMATIC SHUTOFF TIMERS - 120VAC

694

Stainless Steel Rotary Timer (SPDT, 20A)
2 Hour Timer. 1/2" deep.
Double gang box recommended.
For use with NEMA 3R box for mounting enclosure (not provided)

695

Stainless Steel Rotary Timer (SPDT, 20A)
12 Hour Timer. 1/2" deep.
Double gang box recommended.
For use with NEMA 3R box for mounting enclosure (not provided)

696

Four preset switch for indoors.
Can be set at 2, 4, 8, and 12 hours (SPDT, 20A)
Fits single Gangbox

POWER SUPPLIES - FOR 24VAC MODELS

Input Primary - 120VAC, 60/50Hz, 1A max
Output Secondary - 24VAC, 60/50Hz, 4A

Model	Style
311-PS1	1 Output
311-PS3	3 Outputs
311-PS5	5 Outputs

COMMERCIAL EMERGENCY STOP - 120VAC OR 24VAC

Perfect for commercial applications of Evolution 360 or EI systems. Push button with keyed reset allows supervisor confirmation. Safely turns off up to 3 circuits plus one fail safe function.

For replacement Keys use product number:
E-STOP-KEY

311-ESTOP-3

Size: 2.8" x 2.8" x 4", Rated for 600VA, 10A
Rated IP65 - Protection against dust and low pressure water from all directions.

120 VAC OUTDOOR ON/OFF REMOTE CONTROL

578-C

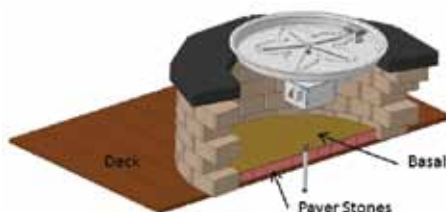

Used with EI Fire Pit Systems. 120 VAC models only. CARLON in-line power control with 3 prong in/out.

DECK INSULATION KIT (EI, FPPK & MLFPK)

This kit is for use when installing a gas fire pit on a wood or composite deck- provides flame and excess heat protection around input flex line connection(s). This basalt insulation is for inside the fire pit enclosure or bowl, is meant to place over a layer of paver blocks (1" min. thickness) commonly found at your local builder's store. Incoming gas stub must protrude through the deck, paver blocks and insulation for fire pit flex line connection. Kit includes basalt insulation and instructions- basalt insulation measures 39.3" x 39.3" (1 sq. meter)- larger fire pits will require more pieces, insulation is easily cut with utility knife. Smaller bowl kit available.

FPI-DECK20SQ - For fire bowls includes basalt insulation- 19.6" x 19.6"

FPI-DECK39SQ - For fire pits- includes basalt insulation- 39.3" x 39.3" (1 sq. meter).

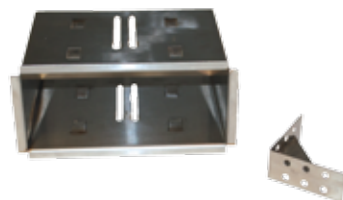

PUSH BUTTON / FLAME SENSE MODELS (FPPK)

FPPK CONTROL BOX MOUNTING SLEEVE

This stainless steel sleeve can be mortared in place with block or fastened to stone or metal - adjustable support bracket included. (7.75"W x 3.25"H x 6.25"D)

FPPK-VBMS

MATCH LIT MODELS (MLFPK)

PAVER BLOCK BRACKET

Designed for the Dante Valve, this bracket allows flexibility and installation ease of the MLFPK decorative key valve. The face plate is adjustable from 8" to 12" width accommodating most pavers. The valve is securely mounted to bracket using decorative flange. (8-12"W x 3.875H x 5"D)

IMPORTANT: For use only with DANTE Valve #327-CH (Pg. 60)

*Valve/Flange
Key not included

KVMB-PB

SMALL TANK KIT - LP (FPPK & MLFPK)

This kit is for use with CSA certified FPPK, MLFPK, and FPK fire pit models less than 90k Btu- see fire pit insert section for approved models. The kits includes a 90-degree regulator with 48" hose, 24" Flex Line, small tank L-Bracket and fittings for FPPK or MLFPK connection.

For use with CSA Certified FPPK & MLFPK fire pit inserts only

STLPK

READY TO FINISH SERIES

COMPLETE FIRE PIT PACKAGES

HPC offers complete fire pit packages that include unfinished enclosures fitted with a certified remote electronic ignition (EI), push button/flame sense (FPPK) or match lit (MLFPK) fire pit insert.

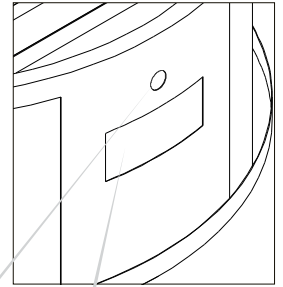

MAP APPLIES

READY TO FINISH

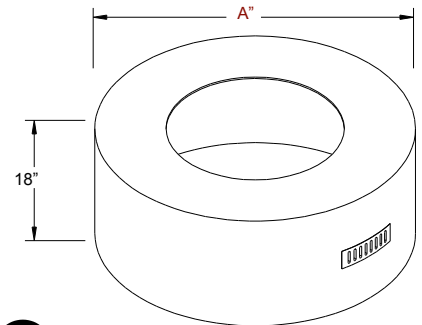

These units are unfinished to allow the customer to finish with stone, veneer, or stucco to match their surrounding. Units are available in round, octagon, square, and linear shapes. Housings take the guess work out of enclosure construction - especially with the difficult round and octagon shapes. These are 18" tall and are constructed of sturdy 22 gauge galvanized steel material, welded frame, and a 1/2" hardboard shell, and weigh 150 lbs.

Enclosure ships from North Carolina Warehouse on pallet; Fire Pit ships from Ohio Warehouse.

ROUND ENCLOSURE

Frame is pre-cut for FPPK or MLFPK but NOT hardboard.

EI Models Include: Enclosure, Fully Assembled Insert, Input Flex Line and Instructions

FPPK Models Include: Enclosure, Fully Assembled Insert, Mounting Sleeve and Instructions

MLFPK Models Include: Enclosure, Fully Assembled Insert and Instructions

Size: 45" or 54" diameter, 18" tall
Insert: 25" Bowl Pan, 18" Penta Burner

COMPLETE FIRE PIT PACKAGES

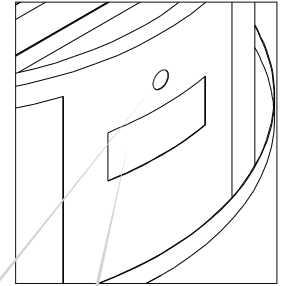

HPC offers complete fire pit packages that include unfinished enclosures fitted with a certified remote electronic ignition (EI), push button/flame sense (FPPK) or match lit (MLFPK) fire pit insert.

READY TO FINISH

These units are unfinished to allow the customer to finish with stone, veneer, or stucco to match their surrounding. Units are available in round, octagon, square, and linear shapes. Housings take the guess work out of enclosure construction - especially with the difficult round and octagon shapes. These are 18" tall and are constructed of sturdy 22 gauge galvanized steel material, welded frame, and a 1/2" hardiboard shell, and weigh 150 lbs.

Enclosure ships from North Carolina Warehouse on pallet; Fire Pit ships from Ohio Warehouse.

RECTANGLE BURNER ENCLOSURE - TROUGH BURNER INSERT

Frame is pre-cut for FPPK or MLFPK but NOT hardiboard.

Size: 60" X 24", 18" tall
Insert: 36" or 48" Trough

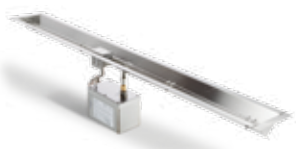

EI Models Include: Enclosure, Fully Assembled Insert, Input Flex Line and Instructions

FPPK Models Include: Enclosure, Fully Assembled Insert, Mounting Sleeve and Instructions

MLFPK Models Include: Enclosure, Fully Assembled Insert and Instructions

COPPER BOWL SERIES

COMPLETE FIRE PIT PACKAGES

The HPC Copper Bowl Series is available in the Fire Bowl or the Pool Side Fire & Water Bowl models. Both versions are fitted with a CSA Certified match lit (MLFPK) or remote electronic ignition (EI) fire pit insert and are available with both Liquid Propane and Natural Gas. These come in an oil rubbed look with either a hammered finish or a smooth finish, based on model. The Pool Side Fire & Water Bowls utilize 1" FIP fitting for pool pump connection.

SHIPPING: Both bowl and fire pit insert ship from Ohio warehouse - crate on pallet.

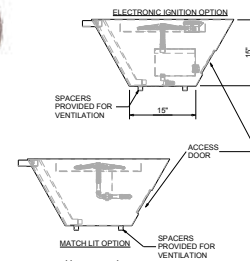

Mesa Fire Bowl

Mesa Fire & Water Bowl

MESA MODELS - HAMMERED

EVOLUTION 360 - H2Onfire

Perfect for any residential or commercial setting, these innovative fire and water effects add the sound of soothing water and beautiful blue LED lights to the warmth and romance of fire. They arrive fully assembled with a self-contained filtrated water system and wall switch control of fire, water, and lights. Just level the basin and connect the water, electric, and gas.

These features can be installed on practically any patio in a residential or commercial setting - no pond or pool needed! This fully assembled, plug-n-play system comes ready to install - simply level the water pit then connect water, electric, and gas. Finally, enclose with stone, veneer, stucco, etc. to match your patio décor. Operation is even simpler - three switches control the water, LED lights, and fire pit. The Evolution 360 is made of durable, weather resistant, black polyethylene and engineered to last - no on-site guesswork. **Ships in crate on pallet.**

EVOLUTION 360 AND H2Onfire FEATURES

Evolution 360 Model

Beautiful LED Lighting

Low Level Sensor

Auto-fill - Overflow

Swim World Pools - TN ▲

IBS Show Las Vegas

H2Onfire Model

Water Filter

Flow Control Valve

Control Box

Features:

- Beautiful blue LED lights to illuminate water** - hidden under scupper.
- Auto fill system** - automatically adds water when needed; Low level sensor protects pump if water supply issue
- Filtration** - water is conditioned with a reusable, easy-to-clean filter
- Water pump** - 2,400 to 4,800 gallons per-hour depending on model

Leveling / Height Setting - four heavy, 3/4" threaded feet give flexibility of height adjustment and leveling. Easily adjusted on site with ~4" of travel

Overflow feature - allows water to escape safely

Electrical Connection - simply with a 5-lead, 10' cable ready to connect. Control Panel incorporates 3 push-to-reset breakers for water, LEDs & fire

EVOLUTION 360 AND H20nfire INFORMATION

Basin Dimensions

Outside Diameter: 52"
Overall Height: 26" - 30"
Basin: 14"-18" with Adjustable Side Wall Height
Tower: 10" Diameter Flange to Mount Centerpiece

Basin Weight

125 lbs Dry, 532 lbs Wet

Additional Load

Basin floor: 200 lbs max
Tower: 100 lbs max

Water

Softened tap water only - Minor conditioning needed
Capacity: Unit holds 50 Gallons (less with Water Rock)
Water Pump: 3,200gph Standard (higher rates available)

Power

120VAC - Control via panel or from remote location.

EVOLUTION 360 - FIRE AND WATER INSERTS MAP

HPC'S AWARD WINNING - VERY POPULAR FIRE AND WATER ELEMENT APPLIES

These insert's have many unique and user friendly features that make it a year round water and fire pit. We have made these inserts so the fire, water and lighting features will work independently of each other making it an ideal insert in areas that need to winterize the water feature but still enjoy their landscape.

HPC'S AWARD WINNING - VERY POPULAR FIRE AND WATER ELEMENT

HPC is proud to announce another first in the industry as well as adding a new element to the water feature insert series, the H2Onfire fire on water feature. This insert has been a longtime request of our dealers (and the consumer). A true electronic fire on water, turn-key appliance operating at a gas pressure of only 1/2 psi, allowing for residential installations. It is also the first "fire on water" system to be certified in North America to the Z21.97 standard by the CSA Group - passing the stringent wind, rain, and combustion test.

The fire ring is totally submerged underwater using our patent pending burner design and back flow prevention to protect the controls - giving an even and very appealing flame at only 65,000 Btu. This is NOT a match lit system- it is remote control with auto relight. Our ignition and flame sensing network is located in the center tower monitoring flame conditions at all times.
Ships in crate on pallet.

CONCRETE FIRE ON WATER AND HAMMERED COPPER 360

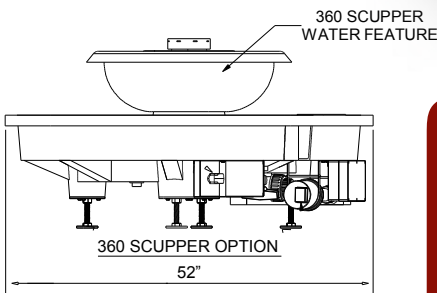

Black Concrete Bowl - 4 Scupper

Burnt Sienna Concrete Bowl - 4 Scupper

Hammered Copper Fire on Water - 360

Fully Assembled.
Includes Basin, Water Bowl, and Fire on Water Control System

Evolution 360/H2Onfire Enclosure Features:

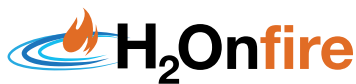

- Made of lightweight aluminum
- 74" O.D.
- Modular 3 section construction. Bolts together and is easy to lift.
- Adjustable leveling feet
- Lockable access door
- Color: Copper vein with flat black.
- Powder coated. Additional colors coming soon!

Match proper accessories to your fire pit model - see Pg. 65-68.

FIRE PIT ACCESSORIES

EVERYTHING YOU NEED IN ONE PLACE

HPC offers everything you need to turn your fire pit into the work of art and outdoor focal point that it is. With one stop shopping you can spend less time finding media and accessories and more time enjoying your outdoor fire pit.

GLASS WIND GUARDS

HPC provides a high quality glass wind guard specially designed to complement as well as provide additional safety for HPC fire pit inserts of all shapes- round, square, rectangle and linear. These feature a durable tempered glass construction to ensure a long lasting, heat resistant product. Wind guards reduce flame disturbance of your fire pit and prevents loose items from getting too close to the flames.

Features:

Tempered Glass - Heavy duty 3/16" clear glass is tempered to improve durability and allow it to withstand high temperatures. Depending on wind guard size- 4 or 6 sections complete the desired shape.

Brackets- Polished aluminum brackets and plastic support feet provided.

Round Wind Guard

Square Wind Guard

Rectangle Wind Guard

Linear Wind Guard

WG-RUBBER FOOT-SQ/RECT

INSTALLATION COLLARS - FOR BOWL PANS

Fire pit installation can be made easier with our installation collar, of an appropriate size, mortared in just below the top course of the enclosure. The collars make the pan and valve box easy to access.

The ID and OD of the installation collars differ by 6" to allow a small space between the side of the pan and the collar as well as 1" or more of the collar to project into the body of the enclosure and be mortared in if desired. The collar should be installed into the enclosure while it is being built. Collar should be 2" to 4" below the top of the enclosure.

Model	Size	ID	OD

FIRE PIT ACCESSORIES (CONTINUED)

EVERYTHING YOU NEED IN ONE PLACE

HPC offers everything you need to turn your fire pit into the work of art and outdoor focal point that it is. With one stop shopping you can spend less time finding media and accessories and more time enjoying your outdoor fire pit.

OUTDOOR LOGS

Designed specifically for the outdoors, these are sure to enhance the flame in your fire pit. Being ceramic fiber, they develop a glow where the flame is the hottest. These are available in four models, Woodland, Campfire, Western Pine and Linear Birch in 2, 4, 5, 6 and 8 piece sets depending on the size.

Specifications

Style	Model	Piece	Piece Length
Woodland	FPL12W4	4	9"-10"
	FPL17W4	4	11"-13"
	FPL17W5	5	11"-13"
	FPL24W5	5	15"-19"
	FPL24W6	6	15"-19"
	FPL36W6	6	24"-28"
	FPL48W8	8	24"-37"
	FPL48W2	2	37"
Campfire	FPL17C4	4	13"-16"
	FPL24C6	6	14"-17"
Western Pine	FPL17WP5	5	11"-13"
	FPL24WP6	6	15"-19"
	FPL36WP6	6	24"-28"
Linear Birch	FPL14LB5	5	9"-10"
	FPL28LB5	5	14"-28"

Monsma - Michigan

WOODLAND STYLE

This is our most popular style. These have a weathered look of gray and black which looks best when resting on a bed of lava rock. These are available in 2, 4, 5, 6 and 8 piece sets up to our large FPL48 for size 36" fire ring and above fire pits.

CAMPFIRE STYLE

The Campfire set is "the original log set" and are brown and black. These look great resting on a bed of lava rock. These are available in four and six piece sets, up to our large FPL24 size for size 24" and above fire pits.

WESTERN PINE STYLE

New outdoor logs in a beautiful western pine style! The color combination is brown, tan and black creating an amazingly realistic wood feature for your project.

LINEAR BIRCH STYLE

New Birch style logs designed specifically for HPC Linear Burners! When assembled the logs are only 8" wide - multiple sets can be used for long linear applications.

LOG GRATES - FIREPLACE

HPC carries 24", 30", and 36" stainless steel grates. These are made of solid 304 stainless steel, square stock material and are welded at every joint for additional strength.

Model	Size
SFG24	24"x18"x6"
SFG30	30"x18"x6"
SFG36	36"x18"x6"

FIRE PIT ACCESSORIES (CONTINUED)

EVERYTHING YOU NEED IN ONE PLACE

HPC offers everything you need to turn your fire pit into the work of art and outdoor focal point that it is. With one stop shopping you can spend less time finding media and accessories and more time enjoying your outdoor fire pit.

FIRE PIT COVERS

ROUND ALUMINUM COVERS - TALL

Now protect your fire feature in style! These lightweight aluminum hard covers are powder coated with UV resistant, high-heat textured black or gloss copper. They are available in two sizes - 32" (15lbs) and 44" (20lbs).

Color	Size	Models	Height	Weight
Copper Vein	32"	FPHC-32C	10"	15 lbs
	44"	FPHC-44C	14"	20 lbs
Black	32"	FPHC-32BL	10"	15 lbs
	44"	FPHC-44BL	14"	20 lbs

ROUND ALUMINUM COVERS - SHORT

Color	Size	Models	Height	Weight
Copper Vein	24"	FPHC-24C	1"	6 lbs
	36"	FPHC-36C		13 lbs
	48"	FPHC-48C		23.5 lbs
Black	24"	FPHC-24BL	1"	6 lbs
	36"	FPHC-36BL		13 lbs
	48"	FPHC-48BL		23.5 lbs

COPPER COVERS

Shape	Finish	Models	Size	Height	Weight
Round	Hammered	FPHC-26TEMP/32MESA	19"	8.5"	7.5 lbs
		FPHC-31TEMPE	32"	5.75"	15 lbs
Square	Hammered	FPHC-36SIERRA-SQ	26"X26"	7"	13 lbs
		FPHC-40SEDONA-SQ	30"X30"	7"	13.5 lbs

STAINLESS STEEL COVERS

These stainless steel covers are constructed of #304, 20g material with handle. Great for covering fire pits without outdoor logs. Linear trough covers are designed specifically for our trough series, be it match lit, manual ignition, or remote electronic ignition models. These are lightweight and have handles for ease of use.

LINEAR

Stainless	Size	Model	Height	Handle	Weight
Brushed	28" x 9.5"	TPHC-24SS	1"	1	11 lbs
	40" x 9.5"	TPHC-36SS	1"	1	13 lbs
	52" x 9.5"	TPHC-48SS	1"	2	15 lbs
	64" x 9.5"	TPHC-60SS	1"	2	18lbs

RECTANGLE

Stainless	Size	Model	Height	Handle	Weight
Brushed	28" x 16"	HPhC-24X12SS	1"	1	16 lbs
	34" x 16"	HPhC-30X12SS	1"	1	18 lbs
	40" x 18"	HPhC-36X14SS	1"	1	20 lbs
	46" x 18"	HPhC-42X14SS	1"	2	22 lbs
	52" x 20"	HPhC-48X16SS	1"	2	24 lbs
	58" x 20"	HPhC-54X16SS	1"	2	28 lbs

Match proper accessories to your fire pit model - see Pg. 65-68.

VINYL COVERS

Made of durable black vinyl and protects your fire pit and enclosure from debris and wet weather. The round covers have elastic and rectangle covers have a pull string at the bottom for ease of applying and removal. NOTE: Skirt Length 10"

FIRE PIT COMPONENTS (CONTINUED)

EVERYTHING THE DESIGNER IN YOU COULD DREAM OF

Have your heart on building your dream pit? We have you covered on all the bases from outdoor burners to regulators. We will make sure you start off on the right foot.

DECORATIVE KEY VALVES

Key Valve Part Numbers: Key Valves are numbered as either Angled or Straight, and based off of color. For example, MAFB is described as Manual Angled Flat Black. MSFB would be Manual Straight Flat Black.

STANDARD CAPACITY VALVES (1/2")

1/4 Turn angle or straight manual ball valve with flange and key. 1/2" inlet and outlet. For floor or wall mounting.

Recommended for gas shut off of 150k Btu or less

HIGH CAPACITY VALVES (3/4")

1/4 Turn angle or straight manual ball valve with flange and key. 3/4" inlet and outlet. For floor or wall mounting.

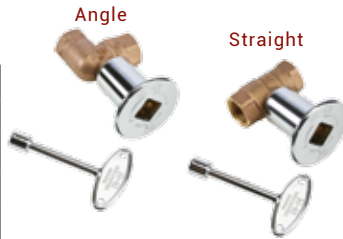

Recommended for gas shut off of 400k Btu or less

POINT OF PURCHASE PRODUCTS

HPC DISPLAY KIOSK

REPRESENT HPC IN STYLE WITH A KIOSK KIT!

HPC offers a very appealing and educational kiosk for your store front. It is constructed of long-lasting steel and powder coated for a professional look- and is very simple to assemble. The kiosk explains in Layman terms how to select and construct the style, shape, and technology of their fire pit with the help of the Dealer while using HPC fire pit inserts. The Kiosk Kit includes the kiosk stand, burners with placards, a laminated flip-book and several take-home brochures (replenished at no cost).

SHOW US YOUR PROJECTS

We want your pictures! HPC is constantly looking for new finished installations and interesting projects to feature in our advertising. Let us promote your company by sending us images of your projects and installs, and get some credit on your HPC account for doing so!

- HPC Products installed and finished with enclosure, media, logs, etc.
- High resolution .tif or .jpeg photos wanted!
- Burning shots at Dusk or Dawn preferred.
- Send to pics@hpcf.com, earn \$25 credit per installation! (\$50 Maximum)
- Send multiple shots and angles of your best installations and receive up to \$50 credit.
- Please include P.O. number in subject line of email.
- NOTE: This is not available if receiving live burn program credit (Pg 3)
